Strategic Recommendations for Freshmart Retail Performance

Key Performance Insights

Overall Performance (2025)

- Total Revenue: R17.7M across 64,330 transactions
- Average Basket: R275.08 with 13.45 items per transaction
- Geographic Leaders: Gauteng dominates with R8.4M (48% of revenue), followed by Western Cape (R5.8M) and KwaZulu-Natal (R3.4M)

Store Format Optimization

Current Performance by Format:

- Medium Format: R276.69 avg basket (highest)
- Large Format: R274.34 avg basket, 31,441 transactions (highest volume)
- Express Format: R273.05 avg basket, 8,115 transactions

Recommendations:

- Expand Medium format stores - They deliver the highest average basket value while maintaining good transaction volume (24,774)
- Optimize Express stores - While they have similar basket values, their lower transaction volume suggests potential for better site selection or marketing
- Leverage Large format strength - These drive the highest transaction volume; focus on maintaining traffic while working to increase basket size through cross-selling

Loyalty Program Enhancement

Current State:

- Non-members: R9.3M revenue (52.4%)
- Loyalty members: R8.4M revenue (47.6%)

Critical Finding: Despite similar numbers, loyalty members likely have higher frequency/lifetime value. Investigate:

- Member vs non-member transaction frequency
- Average basket comparison (not just total revenue)
- Member retention and repeat purchase rates

Action Items:
